

Brass claw quick coupling With hose tail, post-constrained

Technical specifications:

It can be tightened with screws and it also has a support ring.

It's suitable for suction and high pressure.

It has GEKA or GEKA compatible water connecting hose tail. After connecting, it can be secured with the support ring on it, which does not let the claw coupling connection accidentally screw off.

It can be ordered with acid resistant design, with drinking water quality!

Operating pressure: 20 bar combined with a different coupling 10 bar

Material: polished brass

Sealing: NBR

Medium: water

The product is a permanent storage lots. Meantime, we hold the right of selling the stock in products.
