

Closures with TW/PTFE lining Hydrochloric acid resistant

Technical specifications:

It's a DIN TW standard coupling with Teflon coating, which is persistent against the kind of chemicals and acids, which can attack stainless steel (for example Hydrochloric acid, ferric chloride).

We are able to give PTFE, ETCFE, FEP or PFA coating for almost any unique hose tail, adapter or coupling.

The PTFE coating can be virgin (white, translucent) or electrically conductive (black).

The product is a permanent storage lots. Meantime, we hold the right of selling the stock in products.

Size	Type	Title	Lining	Article number
DN 80	TW VB80 PTFE	PLUG for MK	PTFE natural	124006
DN 50	TW MB50 PTFE	CAP for VK	PTFE natural	124005
DN 80	TW MB80 PTFE	CAP for VK	PTFE natural	124012
DN 50	TW VB50 PTFE	PLUG for MK	PTFE natural	124007
