

Induform / RR Corrugated, red water hose

Technical specifications:

The hose is strong, and suitable for heavy-duty. The exterior is longitudinally corrugated.

High quality ribbed water hose that is characterized by the strong cross-braided insertions and a production process in which the inner and outer walls are connected with each other with heat, which offers a much stronger adhesion than many glued alternatives. Hose can be used as a water supply hose at construction sites in industry, shipyards and other locations where higher quality requirements are set for a water hose. Due to its special construction, hose is extremely suitable for reel applications.

Felirat: ® INDUFORM®/RR PN 10 BAR

Operating pressure: 10 bar

Bursting pressure: 30 bar

Heat resistance: -20 °C / +60°C

Interior: black, smooth

Exterior: red, corrugated

Linings: polyesther fabric linings

Storage lots, splitting of the rolls are possible. Meantime, we hold the right of selling the stock in products.
