

LPG hose GPL/D-EN1762 natural gas hose

Technical specifications:

The LPG hose is suitable for liquefied hydrocarbon gas and natural gas transporting. It's according to the EN 1762:2003 D regulations.

Operating pressure: 25 bar

Bursting pressure: 100 bar

Heat resistance: -30°C / +70°C

Structure: NBR rubber, conductive ($R < 10^6 \Omega$), black, smooth

Cover: synthetic rubber, black, conductive ($R < 10^6 \Omega$), self-extinguishing, abrasion resistant, smooth, cloth finish

Safety factor: > 4 times operating pressure

Standards: UNI EN 1762:2006 – EN 1762:2003

Storage lots, splitting of the rolls are possible. Meantime, we hold the right of selling the stock in products.

| Inside Ø (mm) | Wall thickness (mm) | Outside Ø (mm) | Weight (kg/m) | Bending radius (mm) | Roll size (m) | Article number |
|---------------|---------------------|----------------|---------------|---------------------|---------------|----------------|
| 13 | 5 | 23 | 0,35 | 100 | 40 | 190003 |
| 19 | 6 | 31 | 0,58 | 160 | 40 | 190002 |
