

MIKALOR W2 Stainless steel Mikalor supra wide hose clamp

Technical specifications:

The reinforced heavy duty hose clamp consists of a wide strong steel band and bolt.

The wide, strong hose clamp is made of stainless steel. The screwing out the bolt makes the interior strap rotating, so the clamp can be put on the hose without taking it down from the hose tail, but also it can be put on from the side without the parts of the clamp falling off.

The clamp was made according to the EU 20032/95/EC regulations.

Material:

The band is stainless steel (AISI 430), the Allen bolt is galvanized steel. The one-piece steel band edges are rounded.

Available from stock with W5 - AISI 316 material grade too!

The clamp can be entirely unfolded.

The product is a permanent storage lots. Meantime, we hold the right of selling the stock in products.
