

Milkcord/SP NBR FDA Food quality suction/discharge rubber hose

Technical specifications:

It's suitable for liquid foods, for example dairy products, fruit juices, animal and vegetable fats and oils, and also for alcoholic medium up to max 15% alcohol content.

It can be cleaned with steam, against bacteria, up to 120°C, or with hot water and other usual detergents of the food industry.

For higher alcohol content (max 96%) we recommend the MILKCORD/SPIRIT hose with extended diameter selection!

For food quality hose for special use request a quotation! (e.g. corrers machine, hot marmalade)
