

NEO-COAT 1 Heat-resistant, up to 135 °C, thin-walled suction hose

Technical specifications:

The hose is UV and chemical resistant and extremely flexible with helix reinforcement. It's suitable for hot steam and gas suction.

There is a hose with thicker wall, where the spiral is covered.

There is a similar hose with a longer design.

Heat resistance: -36°C / +135°C (for short time +150°C)

Structure: Neoprene coated glass fibre with steel spiral

Roll size: 4 m

Certain diameters are available from stock. Meantime, we hold the right of selling the stock in products.
