

NUTRIX 20 Multipurpose food quality blue rubber hose

Technical specifications:

It's a four-layered hose made from special heat-resistant thermoplastic. It's suitable for alcohol, up to 20% content, and liquid acidic medium. It can be cleaned with steam, to prevent bacteria, up to 120°C, or with hot water and other usual detergents of the food industry. It has to be cleaned after use.

The hose is flexible, lightweight, rigid and doesn't crush. Its application is excellent as a rolled up cleaning hose.

It meets the regulations of the food industry and the EU according to the EU 10/2011 A, B, C category (Food quality).

Excellent price value ratio!
