

Protective ball valve With rubber coated handle and quick coupling

Technical specifications:

It's a rubber coated ball valve. The rubber cover protects against damages and it's also heat insulated. (e.g. in case of hot medium the ball valve does not burn the hand of the user).

To the female quick coupling side of the composition, on the picture, any kind of lance or nozzle can be connected, if they have the right male coupling.

The product is a permanent storage lots. Meantime, we hold the right of selling the stock in products.
