

Rubber expansion joint PN16 EPDM PN16 with flange, 130 mm installation length - COPY

Technical specifications:

It is suitable for compansion, vibration and shock absoprtion in the rigid tube system.

Heat resistance: -10°C / +100°C

Installation length: 130 mm

Material: EPDM

Medium: water

Flanges: from DN 32 to DN 150 PN 10/16, from DN 200 to DN 300 PN10 (according to EN1092)

Flange material: 316

On stock at the manufacturer, short delivery time with regular shipments
