

Washing gun for long lance 50 cm long lance

Technical specifications:

The 50 cm long stainless steel lance is suitable for cleaning, disinfection. It has a fan-shaped nozzle.

The washing gun separately, without the lance, can't be used.

The washing gun's input connection is a 1/2" female thread and its output connection is 1/2" male thread. On the picture, the washing gun has a stainless steel female quick connector with protection rubber put on to the output male thread.
